INDIVIDUAL SPRINT REPORT

Sprint 3 · SocialU

Accounts, Profile, and Friendships

STUDENT

Linh Nguyen (LN)

GitHub: Dieulinhh23

COURSE / DATE

CSC 351 · November 4, 2026

Sprint objective

Deliver a complete Login Activity workflow and a saved personal profile board. Students can review recorded sign-ins and personalize a board that classmates can view.

Requirements and implementation

SRS REQUIREMENT	ISSUE	MERGED PR
SRS-107.1, LN — Login-history access.	#858	#963
SRS-107.2, LN — Complete login history.	#859	#964
SRS-107.3, LN — Login date.	#860	#965
SRS-107.4, LN — Login time.	#861	#966
SRS-107.6, LN — Active-session status.	#879	#967
SRS-124.1, LN — Save My Board.	#1038	#1043

Completion: The five Login Activity requirements are closed on GitHub. Save My Board is completed as confirmed by Linh; its GitHub task statuses still await synchronization.

Open Sprint 3 project board

Open submission links for Canvas

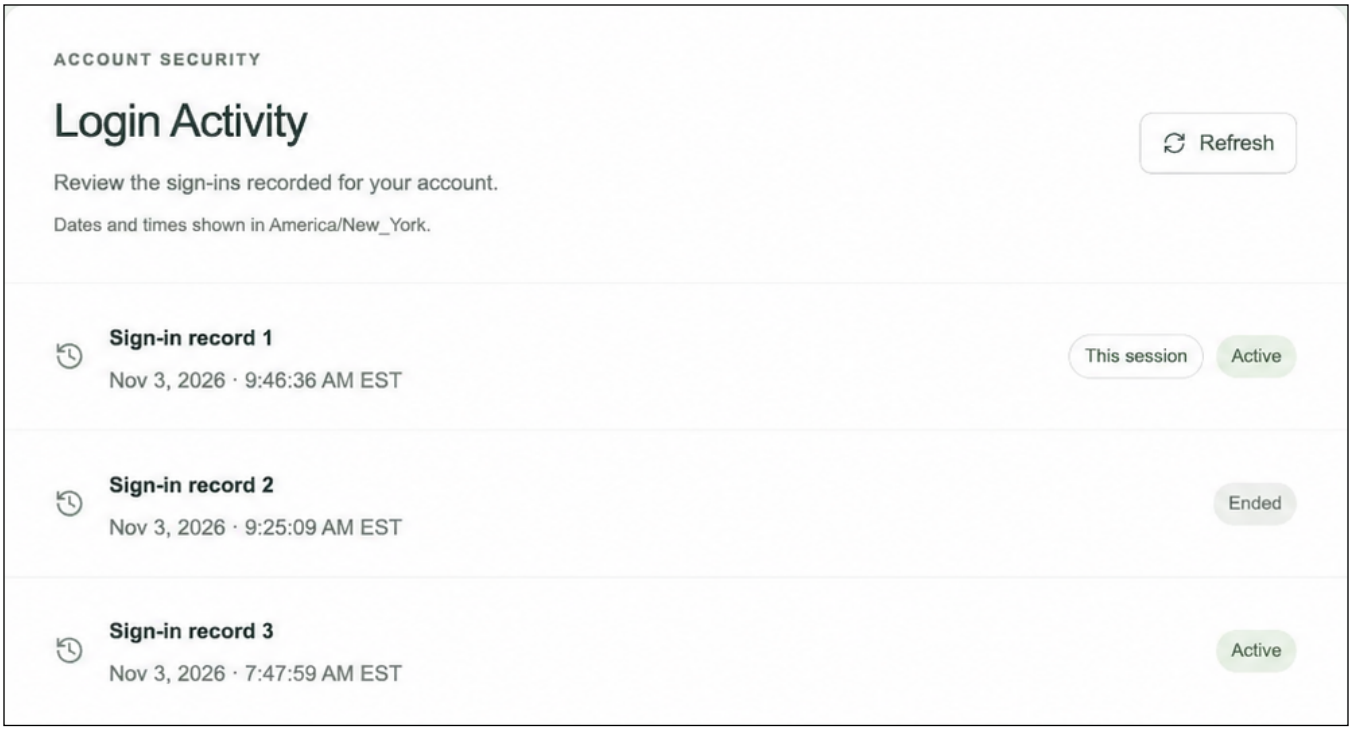

Deferred work: hosted login location and remaining remote-logout acceptance are carried forward to Sprint 4.

EVIDENCE 01–02

Login Activity

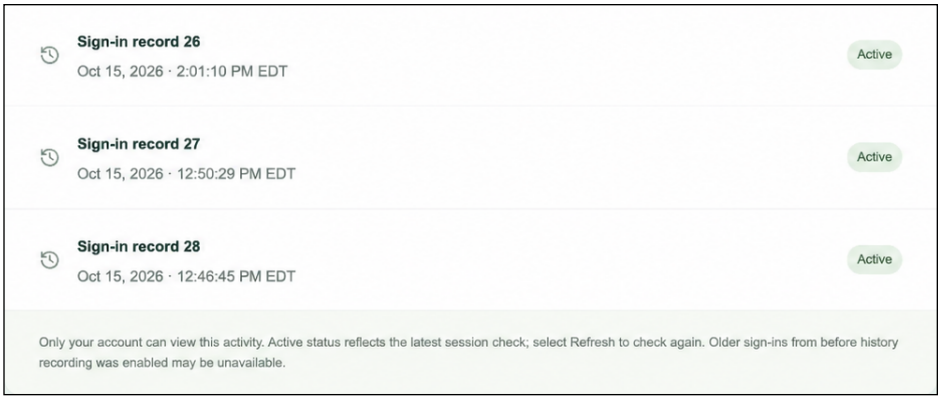

UR-107 · Recorded sign-ins, dates, times, and session status

01 Current and ended sessions

The signed-in student sees recorded date/time values, the current-session badge, and Active or Ended status. Supports SRS-107.1, SRS-107.3, SRS-107.4, and SRS-107.6.

02 Older recorded history

Older records reached the final entry, record 28. Supports SRS-107.2.

Verification
The November 3 integration checkpoint passed 1,371 tests and the production build.

Screenshots captured November 3, 2026. Cropped for readability. Mouse pointers were cosmetically removed in the presentation copies; original captures remain linked from the SRS issues.

COMPLETED · CONFIRMED BY LINH

Save My Board

SRS-124.1, LN — Save My Board. | Traces to: UR-124

The system shall persist the signed-in student's personal profile board when the student selects Save board.

Acceptance criterion: Given the student has valid board edits, when Save board succeeds and the profile is reloaded, then the saved card contents, positions, sizes, and rotations are displayed on that student's My Board.

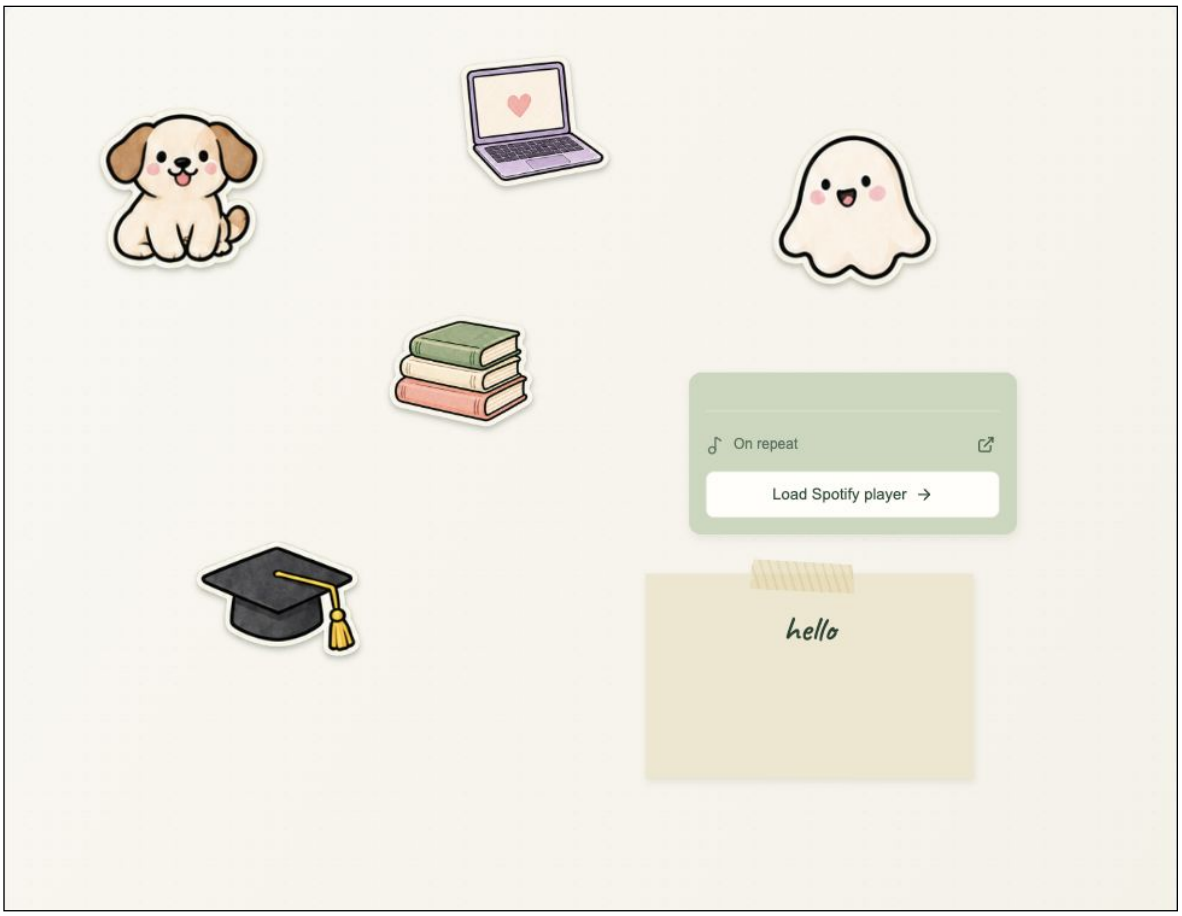

Figure 03. Saved board after a fresh profile load. Cropped from the November 3 own-account capture to show the saved arrangement clearly.

Linh also confirmed resized-item save/refresh and classmate viewing using newer screenshots supplied in the conversation. Relevant automated checks: 46 tests passed on November 4.
